

SPECIAL ANNOUNCEMENT

Due to the COVID-19 Pandemic

Clinics Will Be Temporarily Closed

Dear Pinnacle Physiotherapy Family,

Pinnacle cares about our clients, past and present, and our staff. Because we care, we made a decision in the best interest of everyone's health to temporarily close our doors in efforts to stop the spread of COVID-19 from March 18-31.

This direction is in compliance with the Canadian Association of Physiotherapists (CPA). The following is a statement from the CPA:

"Based on the recommendations of the Public Health Agency of Canada and the provincial and municipal governments, the Canadian Physiotherapy Association recognizes that, in most outpatient settings, clinics should be closed to respect the social distancing protocols being rolled out across the nation. In support of the recommendations by Public Health authorities to optimize social distancing, we recommend that physiotherapy services in the community only be offered to patients with urgent needs."

Let's take the time we all need to stay healthy and protect our most vulnerable by following advice from medical professionals. In the meantime, follow your exercise programs, wash your hands, eat healthy and look out for each other.

If you have any questions for us regarding your treatment, please contact Grant Gagnon at grant@pinnaclephysiotherapy.com. We will be checking our messages during regular business hours but there may be a delay in our response. We will do our best to address your concerns. If you have an urgent need, please contact your family physician or go to the Emergency Room.

We remain hopeful and optimistic during this time that if we all do our part, we'll be greeting you again soon.

- Your Pinnacle Physiotherapy Team
